Product Overview

CEYLON CINNAMON • SELECTED LEAF PRODUCTS

Rooted in Matale

A directly managed plantation developing careful, transparent pathways from cultivation to buyer enquiry.

Ambokka Plantation is based in Pallepola, Matale, an established agricultural region of Sri Lanka. We cultivate true Ceylon cinnamon, coconut and selected tropical crops while developing practical handling and processing capability.

ACCURACY

True Ceylon cinnamon is not confused with cassia, and no unsupported medical claims are made.

CARE

Harvesting, selection and preparation are matched to the agreed product form.

TRANSPARENCY

Availability, quantity, packaging, lead time and destination suitability are confirmed before commitment.

Product availability at a glance

Current position is communicated honestly; exact supply is confirmed after enquiry.

Ceylon cinnamon	Quills • powder • selected leaves	Enquiry accepted
Soursop leaves	Fresh • dried whole leaves	Subject to availability
Moringa leaves	Fresh • dried • powder	Subject to availability
Yakinaran leaves	Fresh • dried • powder	Subject to availability

Exports are a planned objective from 2027 onward. Export supply is not guaranteed until product, destination, documentation and commercial requirements have been reviewed.

True Ceylon Cinnamon

Cinnamomum verum

Recognised by light colour, a delicate aroma and thin, multilayered quills. Enquiries may cover quills, powder and selected leaves. Ambokka Plantation does not represent cassia as Ceylon cinnamon.

CONFIRMED BEFORE SUPPLY

Product form • quantity • preparation • packaging • sample requirement • destination • lead time • documentation • pricing

Soursop Leaves

Annona muricata

Fresh or carefully dried whole leaves may be discussed for suitable enquiries. Availability, harvest timing, preparation and destination suitability are confirmed individually. Traditional-use information is not medical advice.
